IT'S YOUR MARKET - WE'LL DO IT YOUR WAY!

What is a Micro Market?

Instead of your only choices being salty, deep-fried snacks or sugary soft drinks and high-calorie candy ...

Micro Markets transform your employee break room into a convenience store atmosphere with a multitude of products and checkout options that vending machines can't offer.

In a micro market you get the options you want for lunch whether it's healthy, fresh food or the quick, comfort food you want - *it's your choices, your way!*

How Does It Work? Just Choose, Scan & Checkout!

Employees will enjoy the large variety of products available in a micro-market!

Scan your product choices at the kiosk or on your smartphone

with the mobile app!

Accepts Multiple payment options

Cash

Credit

or
Market Account

WHY CHOOSE BRAUN DISTRIBUTING AND A MARKET?

The Mobile App

Put a kiosk in every hand at no charge! Long lines? No problem! Market users can monitor their accounts, add funds, and even checkout all on the mobile application. The app is available for free download for both Android or Apple devices.

The mobile application allows the operator the opportunity to monitor the market from any location with an Internet connection - thus ensuring the market is always taken care of, even on the go!

Ordering Intelligence

Our system will ensure you have the right amount of the right products coming in to your store to keep the shelves full and products fresh!

Benefits of a Market ...

Businesses with a Break Room Market have:

Increased Employee Satisfaction
More Productive Employees
Increased Employee Retention
and so much more!

The Most Complete Anti-Theft Tools

Our theft management approach combines reporting technology with your security camera footage to allow you to pin-point inventory discrepancies in the most productive way possible. This allows operators to pro-actively incorporate our approach into their previously established inventory maintenance practices and work hand-in-hand with their locations to resolve any issues.

THE MOBILE APP:

Three Square Market is the first and only micro market solution to provide a mobile application capable of putting a mobile kiosk in each market users hand. This creative and adaptive technology eliminates the need to wait in line for checkout, will allow individuals to add funds to, and manage their market account at their own pace!

Not only does it put the controls in the market users hands, but it also gives operators the ability to monitor and manage their markets on the go! Ensuring you get the best service possible!

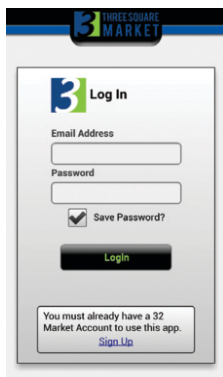

Easy to use and available now ... Try it yourself to see what this technology can do for your work place!

- 1 - Market Kiosk w/ Custom Decal
- 2 - Single Door Coolers
- 1 - Single Door Freezer
- 2 - Slat Wall w/ Accessories
- 1 - Security System
- 1 - Launch Marketing Packet

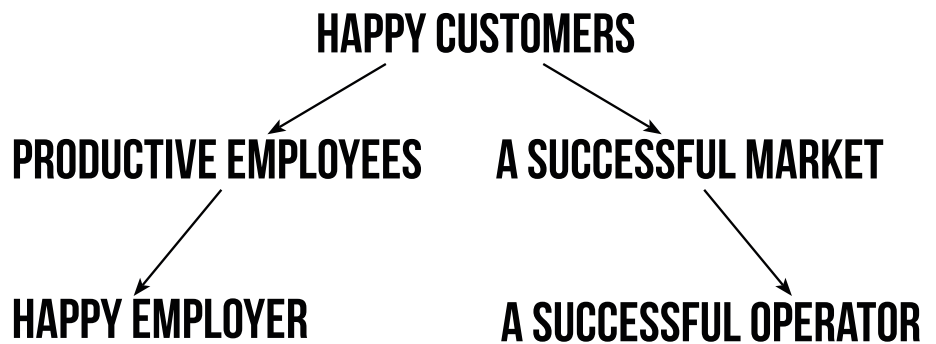

MAKE YOUR MARKET YOUR OWN!

Make use of your space, draw attention and find the right set up for you!

A successful market will showcase a multitude of products that employees at the location desire to purchase. This means that selections can vary depending on the employee culture at each market location. From healthy to quick, brand-name to local products, your break room market can showcase all of these items and more! Surveying employees for their product preference can be done through the kiosk or with employer help - suggestions are always welcome!

Prior to the market opening, as an employer, you can expect that your market operator will provide you with market account instructions for electronic distribution to your employees. When working with a Three Square Market operator for your break room needs, you can also expect that your market operator will provide proper signage and assistance to all employees throughout the life of your market. Operator contact information will be available to customers via the kiosk or their online account. Because everything starts with a happy customer ...
